Re: Doctor Mark J. Kubala - Age 33
Beaumont, Texas

Dear Doctor Coxe:

On July 1st, 1966 Doctor Mark J. Kubala became associated with Doctors Starr, Raves and Faulk in the practice of Neurological Surgery.

Doctor Kubala was born in East Bernard, Texas, and he graduated with honors from The University of Texas Medical School in June 1958. He had a rotating internship at Hermann Hospital in Houston, and a year of general surgery, as well as three and a half years of formal speciality training in Neurology, Neurosurgery, Neuropathology and Electroencephalography. One of these years was spent at the Mayo Clinic. He spent two years in the U. S. Air Force, and was stationed at Lackland Air Force Base, in the department of Neurosurgery. He will be qualified to take his Neurosurgery Board examination after the usual two years of private practice.

Doctor Kubala is a very qualified and well trained neurosurgeon, of the highest moral and professional caliber. He is a very personable young man and is well liked by his patients and colleagues. We hope you will consider his application favorably in The Congress of Neurosurgery.

Yours sincerely,

HS/nm

Harry Starr, M. D.
