Course Description
The CNS Oral Boards Review Virtual Course has been redesigned to reflect the ABNS exam and prepare you for the general or subspecialty-based neurosurgical oral exam, with a focus on best patient management studies. By attending the virtual course, you will gain knowledge, confidence, and experience with the exam format.

Highly interactive, the course prepares you for the case-based nature of the exam with multiple learning formats, including didactic, case presentations, and small-group discussions. One-on-one sessions give you the opportunity to present a case to a faculty member and receive relevant feedback on indications and subsequent follow-through that will aid your performance on the ABNS exam.

Post-course Activities
- Take advantage of the opportunity for post-course quiz sessions with faculty leading up to the Oral Boards exam, exclusively for course attendees.
- All attendees will have the opportunity to attend live one-on-one sessions at the CNS annual meeting with the faculty.

Learning Objectives
Upon completion of this course, participants will be able to:
1. Identify strengths and weaknesses in neurological surgery knowledge
2. Discuss information from the many subspecialties of neurological surgery
3. Implement changes in clinical practice in accordance with recent advances and clinical guidelines
4. Improve case-based presentation and discussion skills

Accreditation Statement
The Congress of Neurological Surgeons is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
Credit Designation Statement
The CNS designates this live activity for a maximum of **10.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
