

# CNS

2026 CNS Artificial Intelligence in Neurosurgery:  
A Practical Course  
May 30, 2026 | Virtual

## Course Overview

This course will provide neurosurgeons, junior academic faculty, and residents with real world examples and guidance on how artificial intelligence (AI) can be used to make neurosurgical practice better for neurosurgeons and their patients. The course aims to help clinicians understand how to incorporate AI tools into their clinical practice and to critically evaluate models for their transparency, reliability, and efficacy.

- Complete access for four (4) representatives to attend the course virtually.
- Attend as fully registered attendees and participate in dynamic discussions.
- Recognition of your company's support on the Supporters Flyer via the [course website](#) with a link out to a page of your choosing, on the virtual walk-in slides, one email communication to attendees, one CNS social media post, and verbal thank you for your company's support during the course.

## EDUCATIONAL GRANTS

### General Course Grant | \$10,000

The course directors go to great lengths to provide the most relevant and up-to-date content for this meeting. Help show your commitment to providing quality education with a course grant. If your budget cannot accommodate this requested amount, the CNS can work with you and accept an amount that's feasible for you this year.

## 2026 INDUSTRY ALLIES COUNCIL

Participation in any of the above opportunities will go towards your company's year-round support of the Congress of Neurological Surgeons and will contribute to your overall CNS Industry Allies Council Level, which provides additional recognition and benefits at the 2026 CNS Annual Meeting and throughout the year.
