

Via ferrata Stuibenfall

In a nutshell

- > Spectacular outdoor program at the largest and most powerful waterfall in Tyrol.
- > The via ferrata in the immediate vicinity of the waterfall leads up to outstanding scenery. With a few exceptions, it has a low level of difficulty, which makes it ideal for beginners.
- > The participants are guided and supported by experienced mountain guides, who explain the correct handling of the equipment before starting.
- > If you are not completely free of vertigo and prefer a more comfortable day, you can climb up the waterfall path and enjoy several impressive viewing platforms.
- > At the edge of the waterfall, the via ferrata climbers meet the hikers and descend together. Spectacular 30-minute hike over a flat but exposed path.
- > Afterwards a well-deserved stop at the rustic Waldcafe.

Optionally bookable: Visit of the Bird of Prey Park or Ötzidorf, backpack and climbing gloves as give-away, photo/video documentation.
